

SAFETY DATA SHEET

This safety data sheet complies with the requirements of: 29CFR1910.1200

Issue Date 27-Jul-2015	Revision Date	27-Jul-2015	Version	1
<u>Product identifier</u> Product Name	Polymer Modified Founda	ation Coat - Fibrated Brush Grade		
Other means of identification Product Code Synonyms	82505 None			
Recommended use of the chemical	and restrictions on use			
Recommended Use		uid asphalt in a solvent system used for damp-proofing	g above ar	nd
	below grade exterior con	crete and masonry walls and foundations that are thore		
Uses advised against	For exterior use only. Do	not use indoors.		
Details of the supplier of the safety	data sheet			
Manufacturer Address	FBC Chemical Corp.			
	P.O. Box 599			
	634 Route 228			
	Mars, Pennsylvania 1604	6		
	(724) 625-3116			
Emergency telephone number				
Company Phone Number	CHEMTREC			
24 Hour Emergency Phone Number	800-424-9300			
Emergency Telephone	Call CHEMTREC Day or	0		
	Within USA and Canada:			
	Outside USA and Canada	a: 1-703-527-3887		
2. HAZARDS IDENTIFICATION				

Classification

OSHA Regulatory Status

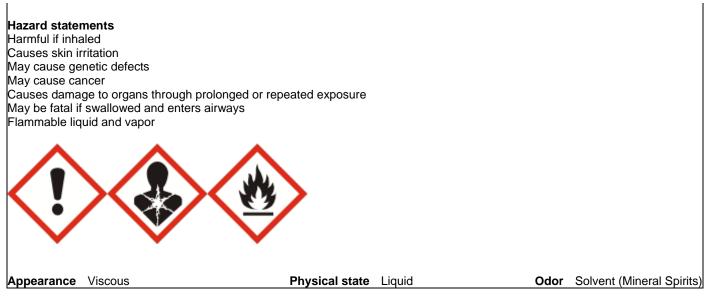

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Acute toxicity - Inhalation (Dusts/Mists)	Category 4
Skin corrosion/irritation	Category 2
Germ cell mutagenicity	Category 1B
Carcinogenicity	Category 1A
Specific target organ toxicity (repeated exposure)	Category 1
Aspiration toxicity	Category 1
Flammable liquids	Category 3

Label elements

Emergency Overview

Danger

Precautionary Statements - Prevention

Obtain special instructions before use Do not handle until all safety precautions have been read and understood Wear protective gloves/protective clothing/eye protection/face protection Use only outdoors or in a well-ventilated area Wash face, hands and any exposed skin thoroughly after handling Do not breathe dust/fume/gas/mist/vapors/spray Do not eat, drink or smoke when using this product Keep container tightly closed when product is not in use. Ground/bond container and receiving equipment Use explosion-proof electrical/ventilating/lighting/equipment Use only non-sparking tools Take precautionary measures against static discharge

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention Specific treatment (see first aid information on this label) If skin irritation occurs: Get medical advice/attention Wash contaminated clothing before reuse Do NOT induce vomiting

Precautionary Statements - Storage

Store locked up Store in a well-ventilated place. Keep cool

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC)

Not applicable

Other Information

- May be harmful in contact with skin
- Harmful to aquatic life with long lasting effects
- Harmful to aquatic life
- Unknown acute toxicity

99.1475% of the mixture consists of ingredient(s) of unknown toxicity

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance

<u>Mixture</u>

This product is a mixture.

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Common	name
Chemical	nature

Polymer Modified Foundation Coating. Solvent based asphalt coating with additives.

Chemical Name	CAS No.	Weight-%	Trade Secret
Asphalt (at Ambient Temperature)	8052-42-4	40 - 50%	*
Mineral Spirits (with < 0.1% Benzene)	8052-41-3	10 - 20%	*
Hydrated Aluminum-Magnesium Silicate (Attapulgite)	12174-11-7	10 - 20%	*
Petroleum naphtha, light aromatic	64742-95-6	10 - 20%	*
1,2,4 Trimethylbenzene	95-63-6	0 - 10%	*
Styrene/Butadiene Copolymer	9003-55-8	0 - 10%	*
Alkyl Amine Acetate	28701-67-9	0 - 10%	*
Petroleum hydrocarbon resin	68131-47-5	0 - 10%	*
1,3,5-Trimethylbenzene	108-67-8	0 - 10%	*
QUARTZ	14808-60-7	0 - 10%	*

4. FIRST AID MEASURES

Description of first aid measures

General advice	Contains petroleum distillate. Harmful or fatal if swallowed. Vapor harmful. May affect the brain or central nervous system causing dizziness, headache, or nausea. Reports have associated repeated and prolonged occupational exposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling contents may be harmful or fatal.	
Eye contact	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.	
Skin contact	Wash thoroughly with soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse. In the case of skin irritation or allergic reactions see a physician.	
Inhalation	Move to fresh air in case of accidental inhalation of vapors. If continued difficulty with breathing is experienced, get medical attention immediately.	
Ingestion	Not an expected route of exposure. If swallowed, do not induce vomiting. Get medical attention immediately.	
Self-protection of the first aider	First aider: Pay attention to self-protection!.	
Most important symptoms and effects, both acute and delayed		
Symptoms	May cause skin irritation. May cause eye irritation.	
Indication of any immediate medical attention and special treatment needed		
Note to physicians	Treat symptomatically.	
5. FIRE-FIGHTING MEASURES		

Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Dry chemical. Carbon dioxide (CO2). Sand. Use foam or water FOG as a last resort.

Unsuitable extinguishing media Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from the chemical

No information available.

Hazardous combustion products Thermal decomposition (burning) may release irritating, corrosive and/or toxic gases, vapors and fumes.

Explosion data

Sensitivity to Mechanical Impact Not sensitive. Sensitivity to Static Discharge May be ignited by heat, sparks or flames.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	No action should be taken involving any personal risk or without suitable training. Use personal protective equipment as required.
Other Information	Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area).
For emergency responders	Use personal protection recommended in Section 8.
Environmental precautions	
Environmental precautions	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent product from entering sewers, drains, or waterways. Local authorities should be advised if significant spillages can not be contained. See Section 12 for additional ecological information.
Methods and material for containm	ent and cleaning up
Methods for containment	Contain spillage with non-combustible absorbent material, e.g. sand, earth, diatomaceous earth, vermiculite.
Methods for cleaning up	Pick up the absorbed material (described just above) and transfer to properly labeled containers for disposal according to local / national regulations (see Section 13).
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.
	7. HANDLING AND STORAGE
Precautions for safe handling	
Advice on safe handling	Use personal protective equipment as required. Remove all sources of ignition. Use only outdoors.
Conditions for safe storage, includ	ing any incompatibilities
Storage Conditions	Keep containers tightly closed in a cool, dry, well-ventilated place. Keep away from heat,

sparks, flame and other sources of ignition.

Incompatible materials

Strong acids. Strong oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines

This product, as supplied, is not believed to contain any hazardous material that exceeds exposure limits established by OSHA. .

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Asphalt (at Ambient Temperature) 8052-42-4	TWA: 0.5 mg/m ³ benzene soluble aerosol fume, inhalable fraction	-	Ceiling: 5 mg/m ³ fume 15 min
Mineral Spirits (with < 0.1% Benzene) 8052-41-3	TWA: 100 ppm	TWA: 500 ppm TWA: 2900 mg/m ³ (vacated) TWA: 100 ppm (vacated) TWA: 525 mg/m ³	IDLH: 20000 mg/m ³ Ceiling: 1800 mg/m ³ 15 min TWA: 350 mg/m ³
Hydrated Aluminum-Magnesium Silicate (Attapulgite) 12174-11-7	TWA: 1 mg/m ³ respirable fraction	-	-
1,2,4 Trimethylbenzene 95-63-6	-	-	TWA: 25 ppm TWA: 125 mg/m ³
1,3,5-Trimethylbenzene 108-67-8	-	-	TWA: 25 ppm TWA: 125 mg/m ³
QUARTZ 14808-60-7	-	 (vacated) TWA: 0.1 mg/m³ respirable dust : (30)/(%SiO2 + 2) mg/m³ TWA total dust : (250)/(%SiO2 + 5) mppcf TWA respirable fraction : (10)/(%SiO2 + 2) mg/m³ TWA respirable fraction 	IDLH: 50 mg/m ³ respirable dust TWA: 0.05 mg/m ³ respirable dust

Appropriate engineering controls

Engineering Controls Use natural cross ventilation, local (mechanical) pick-up, and/or general area mechanical cross ventilation. Ventilation pattern should be designed to prevent accumulation of asphalt vapors. Ventilation must be sufficient to maintain asphalt vapor concentrations below the TWA limits outlined above.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin and body protection	Wear protective gloves and protective clothing that is resistant to chemical penetration.
Respiratory protection	No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, a NIOSH/MSHA approved respiratory protection should be worn.
General Hygiene Considerations	Wash face, hands and any exposed skin thoroughly after handling. Wash contaminated clothing before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state Appearance Color	Liquid Viscous Black	Odor Odor threshold	Solvent (Mineral Spirits) No information available
Property	Values	Remarks • Method	

pH Melting point/freezing point Boiling point / boiling range Flash point	N/A No information available No information available $40.5 \ ^{\circ}C \ / \ > \ 105 \ ^{\circ}F$	Not applicable Setaflash
Evaporation rate Flammability (solid, gas) Flammability Limit in Air Upper flammability limit: Lower flammability limit:	No information available No information available No information available No information available	No data available.
Vapor pressure Vapor density Specific Gravity Water solubility Solubility in other solvents	No information available No information available 0.96 Insoluble Soluble in aromatic and aliphatic solvents.	Water = 1g/ml
Partition coefficient Autoignition temperature Decomposition temperature Kinematic viscosity Dynamic viscosity	No information available No information available No information available No information available No information available	No data available.
Explosive properties Oxidizing properties <u>Other Information</u>	Vapor accumulation could flash or ex None	plode if ignited.
Softening point Molecular weight VOC Content (%) Density Bulk density	Not applicable No information available Less than 250 g/l. 7.8 to 8.1 lb/gal Not applicable	

10. STABILITY AND REACTIVITY

Reactivity _____

Not applicable

Not applicable

 Chemical stability

 Stable.

 Possibility of Hazardous Reactions

 None under normal use.

 Hazardous polymerization

 Hazardous polymerization does not occur.

<u>Conditions to avoid</u> Avoid static discharge. Avoid heat, sparks, and open flame. <u>Incompatible materials</u> Strong acids. Strong oxidizing agents. <u>Hazardous Decomposition Products</u> Combustion may produce carbon monoxide, carbon dioxide, and other asphyxiants.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information	Toxicological testing has not been conducted for this product overall. Available toxicological data for individual ingredients are summarized below.
Inhalation	Avoid breathing vapors or mists.

Eye contact	Avoid contact with eyes. C	Avoid contact with eyes. Contact with eyes may cause irritation.				
Skin contact	May cause irritation.	May cause irritation.				
Ingestion	If swallowed, do not induc route of exposure.	e vomiting. Get medical attention	immediately. Not an expected			
Component Information	as 'Group 2B, Possible Ca exposure to Asphalt fumes temperature plays an impo- carcinogenic potential of b non-volatile at ambient ter demonstrate that Asphalt a normal use of this product listed as a carcinogen. No carcinogen. ** No significant exposure products in which Crystalli and coatings. As one refer http://www.oehha.org/prop *** The IARC Monograph "Operators in user industri and ink production are exp workers in Carbon Black p occasionally have little opp	 * The IARC Monograph (Vol. 103, 2013, Bitumen and Bitumen Emissions) defines Asphalt as 'Group 2B, Possible Carcinogen to Humans'. This definition is based on studies of exposure to Asphalt fumes at elevated temperatures. The Monograph states that temperature plays an important role in determining the degree of exposure and also the carcinogenic potential of bitumen emissions. This same Monograph states that Asphalt is non-volatile at ambient temperature. There is no data presented in the Monograph to demonstrate that Asphalt at ambient temperature is considered a carcinogen. Since the normal use of this product is at ambient temperature, the Asphalt used in this product is not listed as a carcinogen. No other national or international agency has defined Asphalt as a carcinogen. ** No significant exposure to Crystalline Silica (Quartz) is thought to occur during the use of products in which Crystalline Silica (Quartz) is bound to other materials, such as in paints and coatings. As one reference, see California Office of Health Hazard Assessment at: http://www.oehha.org/prop65/CRNR_notices/safe_use/sylicasud2.html *** The IARC Monograph (Vol 93, 2010, Carbon Black, Titanium Dioxide, Talc) states: "Operators in user industries who handle fluffy or pelleted Carbon Black during rubber, paint and ink production are expected to have significantly lower exposures to Carbon Black than workers in Carbon Black production. Other workers in user industries who handle it occasionally have little opportunity for exposure. And further"End-users of these products (rubber, ink or paint) are unlikely to be exposed to airborne Carbon Black particles, which
